

# Coming up in September and October...

## as a part of CCF's low-carbon network

Mon 14<sup>th</sup>  
September,  
7:30-9:30pm

### **Grow Your Own: Autumn Review**

A chance to meet fellow gardeners, share your gardening successes and failures, and pick up some seasonal tips and inspiration with local expert Keith Jordan. All levels of gardening experience are welcome. Special to this session: we'll look back over the last season -- how was it for you and your garden? We'll also plan for next season.

Venue: Ross St Community Centre

Tue 22<sup>nd</sup>  
September,  
7.30-9pm

### **New Members' Meeting**

Want to get active in creating a low-carbon future? Meet us and find out more about the host of carbon-lowering projects you can be involved with. All are welcome!

Venue: Ross Street Community Centre, Community Room

Sun 27<sup>th</sup>  
September,  
6.30-9.30

### **Travel-themed Seasonal Meal**

What's better than a delicious array of local, seasonal dishes? When they are combined with tips on low-carbon travel and shared in a lovely home! Bring a seasonal dish to share, and if you can, a photo or story about your own low-carbon travel.

Venue: Sturton St. Phone/email the office for details

Tue 29<sup>th</sup>  
September, 7:  
30-9:30pm

### **Audiences, messages and messengers**

The first in our new Communicating Climate Change Series – with Rosemary Randall, CCF's director.

Understanding your audience, choosing the right messenger and making your message relevant are key to engaging people creatively in work on climate change. We'll look at what works and what doesn't and practise ways of approaching diverse audiences.

Venue: Tibbetts Room, St Luke's Church Centre, Victoria Rd.

Mon 5<sup>th</sup>  
October,  
7:30-9:30pm

### **Eco renovation: getting started**

The first in this season's Home Energy series, with Tim Acheson (eco-builder), Andy Brown (engineer) & Swati Ogale (eco-architect). Our experts will introduce you to the principles and planning behind successful projects, and guide you through the systems, materials and technologies that are available. If participants wish, this will become an ongoing workshop.

Venue: Tibbetts Room, St. Luke's Church Centre, Victoria Rd.

Tue 13<sup>th</sup>  
Oct, 7.30-  
9.30

### **'Curious Climate'**

Communications workshop with climate scientist Stephen Peake. A workshop to help you feel confident in talking about climate change. We'll explore creatively what the science tells us, what it does not and how to get your point across.

Venue: Tibbetts Room, St. Luke's Church Centre, Victoria Rd.

Tue 20<sup>th</sup>  
Oct 7:30-  
9:30pm

### **Social dreaming about climate change**

With Dan Jones, of Cambridge Groupwork. When people share their sleeping dreams, the images resonate and spark, tapping into areas of the collective unconscious connected with deep social concerns. What can our dreams tell us about climate change and the way to face it? Share your dreams in the safe space of this experiential workshop.

Venue: Tibbetts Room, St. Luke's Church Centre, Victoria Rd.

Mon 26<sup>th</sup>  
Oct, 7.30-  
9pm

### **DIY! A Practical Workshop on home energy improvements**

With Martin Roach, CCF's DIY expert. This workshop will guide you through the practicalities of making your home snug and climate-friendly for the winter, demonstrated in Martin's own home.

Venue: 253 Hills Rd, Cambridge.
